

# HUIS en VIDEO

## **Huis en Video is looking for a kick-ass partner in video production.**

We are a young company seeking to revolutionize the traditional real estate market by embedding high quality HD videos of houses, apartments and property development in a new and innovative approach to marketing. We utilize cutting edge technology and methods to achieve our mission, making the real estate market more consumer friendly and accessible.

To achieve our goal we seek motivated professionals or students who share our vision, are great at what they do and do want their work to go unrewarded. We offer a competitive salary to our partner and a great and colloquial atmosphere. You will be working directly for us and be completely tied into our video production process.

Your job would be creating HD videos of our current offerings, according to customer wishes. Each assignment will be different and exciting. You will be actively encouraged to give input and will be working very independently when shooting the material. Our tools are designed to give you maximum freedom and flexibility while doing your job and making it as easy as possible to get everything done right.

Have a look at our website, [www.huisenvideo.nl](http://www.huisenvideo.nl) and check out our current offerings and showreel and show us that you can do it better!

If you feel spoken to and are up for the challenge, get in touch with us a.s.a.p.! Either e-mail us ([floris.vanhoogenhuyze@huisenvideo.nl](mailto:floris.vanhoogenhuyze@huisenvideo.nl)) or give us a call (020-3623047).

We cannot wait to hear from you!

The Huis en Video team
